Mission

To provide a safe environment for women and families while working to end homelessness, one life at a time.

Vision

To be the portal to comprehensive assessment services for women and families experiencing homelessness.

The Cathedral Center

Provides emergency shelter and case management services for women and families who are homeless or experiencing a housing crisis. Families served include single mothers or fathers, as well as two parent households, with their children.

Hours and Days of Operation

The **shelter program** is open 365 days per year, serving up to 32 single women and 8 families per day. We also offer case management services, mental health assessment and advocacy, basic health, and engagement services, to assist women and families with achieving goals for independence.

Collaborations Bring Strength

The strength of the Cathedral Center lies in the diversity of services and history provided by collaborating agencies and founding partners:

As the Coordinated Entry agency for Milwaukee County, **211@IMPACT** provides initial assessment and direct referral to emergency shelter and case management services.

As an extension of its mission and ministry, the **Cathedral of St. John the Evangelist** provides the physical space for the Center and spiritual support to those who request such services.

Columbia St. Mary's, through **St. Ben's Clinic** provides health assessments and connection to appropriate medical resources.

Homeless Outreach Nursing Center (HONC) provides mental health assessment, engagement, and counseling services for residents.

Over 1,000 **volunteers** bring additional support and service to the women and families we serve. They provide food and fellowship via a robust Hospitality Program, serve as Shelter Aides, provide warm Reception to our guests, and are the heart and soul of our operations.
